Education

IMS Engineering College, Ghaziabad

Ghaziabad, India

B.Tech in Computer Science; Percentage: 78%

2025

VIP Inter College

Pilkhuwa, India

Higher Secondary (12th); Percentage: 77%

2021

L.S.D DAV Public School

Pilkhuwa, India

Secondary School (10th); Percentage: 70%

2019

Relevant Coursework

- Data Structures and Algorithms
- Computer Networks
- Database Management Systems
- Object-Oriented Programming
- Operating Systems

Experience

Dish TV INDIA LIMITED

Greater Noida, India

Web Developer Intern

July 2024 – August 2024

- Collaborated with the development team to build and enhance internal web applications using modern front-end technologies.
- Contributed to responsive UI designs using HTML, CSS, and JavaScript to improve user interaction and accessibility.
- Assisted in integrating APIs and streamlining workflows to support content management operations.
- Participated in code reviews and debugging sessions to ensure robust and maintainable code.

Projects

Student Management System | *Java, Spring Boot, Hibernate (JPA), MySQL*

December - 2025

- Developed a Spring Boot-based application to manage student records with full CRUD functionality.
- Implemented Hibernate (JPA) for ORM-based database operations, enabling efficient data persistence and retrieval from MySQL.
- Designed and developed RESTful APIs for adding, updating, deleting, and fetching student data.
- Applied layered architecture (Controller, Service, Repository) to ensure scalability and maintainability.
- Integrated exception handling and validation mechanisms for robust and error-free operations.

Task Manager Web Application | *HTML, CSS, JavaScript, React JS*

March - 2025

- Developed a responsive task management web application using React JS for efficient task tracking.
- Implemented features such as adding, updating, deleting, and marking tasks as completed.
- Utilized React hooks (useState) for state management and dynamic UI updates.
- Designed interactive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Enhanced user experience by implementing real-time updates without page reloads.

Automated Form Validation Testing | *Java, Selenium WebDriver*

April - 2025

- Developed an automation script using Selenium WebDriver to validate web form inputs and functionality.
- Automated test cases for form fields including input validation, error handling, and submission workflows.
- Simulated user interactions such as form filling, clicking, and navigation to ensure proper functionality.
- Performed cross-browser testing to verify consistent behavior across different web browsers.
- Reduced manual testing efforts by automating repetitive test scenarios and identifying bugs efficiently.

Technical Skills

Languages: Java, Python, C, SQL, JavaScript, HTML/CSS

Frameworks/Technologies: Spring, Spring Boot, Hibernate (JPA), JDBC, Servlets, JSP, React JS, REST APIs, Selenium WebDriver

Developer Tools: VS Code, Git, GitHub, Google Colab, Jupyter Notebook

Extracurricular Activities

- Active Member of the Coding Club at college, participating in weekly coding challenges and technical discussions.
- Achieved a 3-star rating on HackerRank by completing over 100+ challenges in algorithms and data structures.
- Regularly solve problems on platforms such as CodeChef and LeetCode to sharpen problem-solving skills and improve algorithmic knowledge.
